INTERNAL

LHR-NAS BA253

**Before departure:**

- With your catering Flight Coordinators, identify and ensure you have all crew meal trolleys. Ensure you consume only your sectors catering. Refer to page 9 of this document – 'Crew meal Locations' for guidance.

After take-off:

- Distribute arrival documentation (as per Service Snapshots), for The Bahamas only; the shuttle crew will distribute to those customers disembarking in Grand Cayman (GCM) or Turks and Caicos (PLS)

Before arrival into Nassau:

- Restock 'Ready to Go' canisters with fresh juices, water, ice etc
- Restock all bars and lock and seal before landing
- Empty all ovens to used catering trolleys
- Ensure crew meal trolley for the NAS-PLS/GCM crew is easily accessible
- Assist cleaning teams where possible in identifying waste carts for emptying in Nassau during the handover
- Handover form should be completed and left in each galley ready for a verbal handover in Nassau with joining shuttle crew members

After arrival in Nassau:

Must do's:

- SCCM to read PA '**Transit with customers remaining on board**' post disembarkation of terminating passengers at destination. Also read PA '**Crew change at transit station**'.
- Disembarking crew are responsible for conducting the baggage reconciliation task for all remaining transit passengers, as per **OM B 2.1.10.d** – Transits with Passengers Remaining On Board.

Time permitting and without expectation of delay:

- Prepare pre-departure **orange juice and water** for the NAS-GCM/PLS sector (CW only)

NAS-GCM BA253

Express Shuttle: CW Bar Service / WT/WTP Juice & Water

Before departure:

- Ensure handover is completed with inbound crew and are aware of any customer needs
- Prepare and deliver pre-take off **orange juice and water** (CW only) **Note: Alcohol is not permitted to be served on the ground in Nassau**
- Club World: Establish post-take aperitif order (time permitting)

After departure:

- Distribute Cayman Islands arrival documentation to all customers
- **Club World:** Deliver aperitif service, ask two, serve two
- **World Traveller & World Traveller Plus:** Prepare and deliver a lined tray of orange juice and water

Before arrival:

- Standard waste clear in, ovens are not required to be emptied as all white-labelled catering equipment will be removed and replaced on the turn-around
- Lock and seal bar carts – no paperwork is required

After arrival & during the turnaround:

- Collect any unopened washbags and return to the holdalls for use on the next sectors
- Ensure that there is a crew member positioned in the vicinity of any open cabin door
- **Do not pre-set washbags or water bottles in Club World, these are to be distributed on the NAS-LHR sector**

GCM-NAS BA252

Express Shuttle: CW Bar Service / WT/WTP Juice & Water

Before departure:

- **Do not pre-set washbags or water bottles in Club World, these are to be distributed on the NAS-LHR sector**
- Prepare and deliver pre-take off **orange juice and water** (CW only) **Note: Alcohol is not permitted to be served on the ground in Grand Cayman**
- Club World: Establish post-take beverage order (time permitting)

After departure:

- Distribute Bahamas arrival documentation to all customers disembarking in Nassau
- **Club World:** Deliver aperitif service, ask two, serve two
- **World Traveller & World Traveller Plus:** Prepare and deliver a lined tray of orange juice and water

Before arrival into Nassau:

- Restock Ready to Go canisters with fresh juices, water, ice etc
- Restock all bars, and **lock and seal before landing**
- Ensure crew meal trolley for the NAS-LHR crew is easily accessible
- Assist cleaning teams where possible in identifying waste carts for emptying in Nassau during the handover
- Ensure handover form is completed and left in each galley ready for a verbal handover in Nassau with your opposite crew member

GCM-NAS BA252

**After arrival in Nassau:**

Must do's:

- SCCM to read PA **'Transit with customers remaining on board'** post disembarkation of terminating passengers at destination. Also read PA **'Crew change at transit station'**.
- Disembarking crew are responsible for conducting the baggage reconciliation task for all remaining transit passengers, as per **OM B 2.1.10.d** – Transits with Passengers Remaining On Board.
- Identify used bedding from GCM-NAS customers only, and highlight to cleaning team who can source replacement
- De-cater ovens from previous sector and stow in appropriate trollies

Time permitting and without expectation of delay:

- Load meals for NAS-LHR into ovens in CW (located in FWD Galley trollies on trays) and WT
- Prepare pre-departure **orange juice and water** for the NAS-LHR sector (CW & WTP)
- Distribute washbags and customer water bottles in Club World, and pre-set vacant seats

NAS-PLS BA253

Before arrival into Nassau:

- Restock all bars, and **lock and seal before landing**
- Ensure crew meal trolley for the NAS-LHR crew is easily accessible
- Standard waste clear in, ovens are not required to be emptied as all white-labelled catering equipment will be removed and replaced on the turn-around
- Ensure handover form is completed and left in each galley ready for a verbal handover in Nassau with your next crew

After arrival in Nassau whilst waiting for the next crew:**Must do's:**

- SCCM to read PA '**Transit with customers remaining on board**' post disembarkation of terminating passengers at destination. Also read PA '**Crew change at transit station**'.
- Disembarking crew are responsible for conducting the baggage reconciliation task for all remaining transit passengers, as per **OM B 2.1.10.d – Transits with Passengers Remaining On Board**.
- Identify used bedding from PLS-NAS customers only, and highlight to cleaning team who can source replacement
- Ensure galley is prepared for re-catering

NAS-LHR BA252

If your aircraft has originated in GCM, you will have been fully catered already before your arrival. If the shuttle crew have not already done so you will need to:

- Load meals for NAS-LHR into ovens in CW (located in FWD Galley trollies on trays) and WT

If your aircraft has originated in PLS, you will be re-catered at the same time as your arrival to the aircraft in NAS.

- Meals for NAS-LHR will be pre-loaded into ovens

Before departure:

- Prepare and deliver pre-take off **orange juice and water** (CW/WTP)
Note: Alcohol is not permitted to be served on the ground in Nassau
- Deliver menus to customers once seated
- Distribute and pre-set washbags and water, at an appropriate time (if not completed by shuttle crew) before or as soon as possible after departure

Note: There are no catering facilities in Nassau. The NAS-LHR flight is catered in GCM for flights originating in Grand Cayman. For flights originating in Turks and Caicos, product is return catered in the cabin and in a POD in the aircraft hold.

Local uplift of additional meals or product in Nassau is not possible.

Please complete a **CITA** for any catering shortfalls and offer **Onboard Service Recovery** where appropriate.
